I am asking the FCC not to displace my local Air 1 station 90.1FM. I have a teenage son who is influenced by many types of media, I am so fortunate to have Air 1 to continuously bring uplifting and positive music into his life. We are greatly enriched each day by it's message of love and hope. Air1 serves our community by bringing this joyful spirit to us all. I am a financial supporter of my local station, it is worth every dime!
